

Windows®. Life without Walls™. Compaq recommends Windows 7.

**Compaq 315eu
Microtower PC**
Master the basics.

Empower your employees without going over budget. The affordable Compaq 315eu MT puts the power of computing into a stylish package. With Windows 7 Professional or FreeDos, a high-capacity hard drive, up to 4GB PC3-10600 (DDR3-1333) of system memory and an Athlon II X2 215 Processor, you can use the computer right out of the box and get right down to business.

Stylish simplicity with room to grow with your business

The sleek Compaq 315eu MT includes 2 PCI slots, unlike similarly priced computers with limited expandability. With hard-drive capacity up to 750GB, you have ample space for files and programs. Quickly connect and transfer information to and from external devices with the 6-in-1 digital media reader and six easy-to-access Hi-Speed 2.0 USB ports. Using LightScribe technology, the Super-Multi DVD drive etches custom labels onto burned media. You can communicate instantly and securely with employees, clients and prospects while McAfee Antivirus protects your enterprise from unsecure websites and viruses. With the ability to upgrade and add industry standard TV tuners, graphics card or WiFi solutions, the 315eu MT provides quality and performance to meet everyday needs and flexibility to customize as your business grows.

Environmentally friendly

Designed for efficiency, the 315eu MT is manufactured with the environment in mind. With HP Total Care, trade in, trade up, recycle or donate your old technology responsibly and securely so proprietary information and employee information don't fall into the wrong hands.

Reliability without the worry

Productivity won't be hindered with Compaq 315eu MT's consistent performance. All Compaq PCs are backed by HP the world's #1 PC brand in quality and service. Protected by our standard, one-year warranty with extended coverage plans available, you can expect award-winning support and service for your IT investment. We simplify technology so you can focus on business!

Windows®. Life without Walls™. Compaq recommends Windows 7.

Compaq 315eu Microtower PC

This system may require upgraded and/or separately purchased hardware and/or a DVD drive to install the Windows 7 software and take full advantage of Windows 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details. Windows 7 Professional disk may be included for future upgrade if desired. To qualify for this downgrade an end user must be a business (including governmental or educational institutions) and is expected to order annually at least 25 customer systems with the same custom image.
