TerraTec H7

- External USB box for DVB-C and DVB-T
- Integrated CI module for pay TV
- Supports HDTV and Dolby Digital*
- Software for Windows PC and Mac
- Connection via USB 2.0
- Including remote control

* For HDTV and Dolby Digital on a Mac it is necessary to pay for an update to the EyeTV full version

The TerraTec H7 is a handy USB box with integrated receiver for digital television via cable (DVB-C) as well as antenna (DVB-T). Simply connect it to a free USB 2.0 port, and the discreet box transforms netbook, laptop and desktop computers into a full-function television with full HDTV support (including Dolby Digital)* and many additional features. Software for Windows and Mac computers allows operation on all household computers, extensive accessories with a remote control and power adapter are included in the shipping package.
