Acer Adaptive Contrast Management

Acer Adaptive Contrast Management (ACM) optimizes contrast to deliver the highest level of clarity and detail by analyzing every scene, adjusting images frame by frame, and enhancing detail and gradation. What's more, with ACM, the LCD monitor uses less power and saves energy.

POWER SAVINGS

Acer EcoDisplay

Acer monitors using white LED backlight technology minimize environmental impact while offering superior performance and durability. White LED monitors do not contain the toxic substance mercury, making them safer for the environment. They also consume less power and are more durable than CCFL lamps, resulting in big savings.
