

Lenovo L27m-28 Monitor

Lenovo™

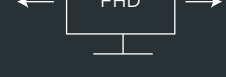

The Lenovo L27m-28 monitor provides an unobstructed viewing experience with the NearEdgeless screen. The full-HD, large 27-inch screen offers enough screen real estate to have multiple working windows at once. The impressive and eye-catching display will be a centerpiece of your desktop, at home, or in the office. Apart from the latest USB Type-C single cable solution, this monitor also features HDMI and VGA ports for versatile connectivity. Compliance with ENERGY STAR® 7.1, RoHS, and REACH requirements ensure that you are doing your bit for the environment.

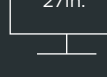

One Cable Connection

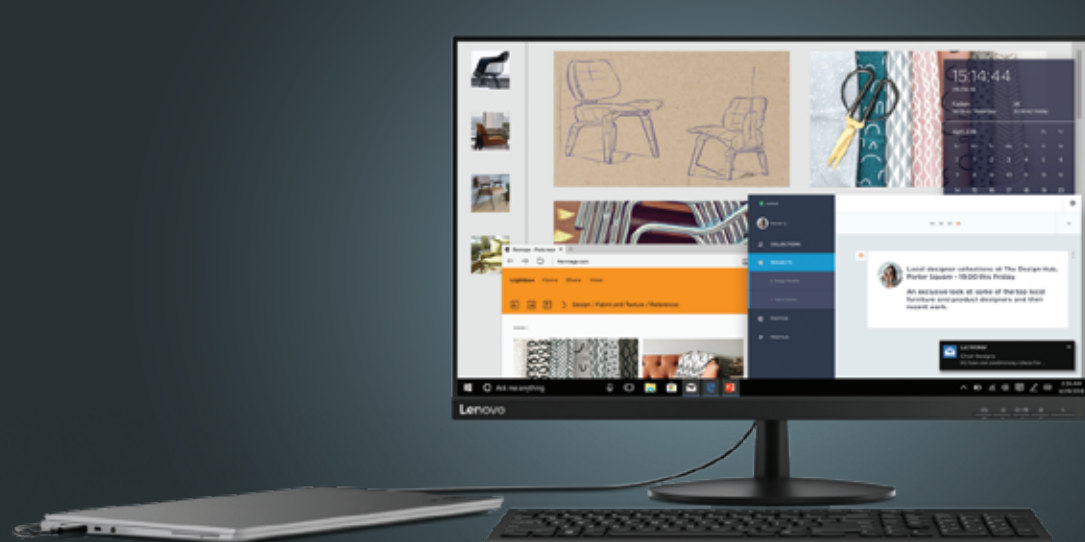

TÜV Eye Comfort

Wide Viewing Angle

Seamless Viewing Experience

Single Cable Solution

The Lenovo L27m-28 quietly surpasses a typical monitor by reducing cable clutter while providing exceptional visual clarity. You can easily multitask by connecting the monitor to your mobile devices and peripherals, while enjoying the luxury of a large screen.

Exceptional Connectivity

This monitor features the versatile USB Type-C port, revolutionizing the interactions between devices and simplifying data and power solutions into one universally compatible port. The exceptional connectivity solution of the single cable allows easy transfer of data, audio, and video, do all this while simultaneously powering your device, be it a laptop, tablet, or mobile.

Clean and Detailed

The 27-inch NearEdgeless display with 1920 x 1080 full-HD resolution provides exceptional visual clarity. Featuring a multitude of connectivity options with HDMI 1.4, USB Type-C, and VGA, this monitor allows you to connect to just about any device. It is designed as 'plug and play' for all operating systems and is the best choice to deliver all shades of light and natural colors to create an immersive viewing experience. Every detail can be seen clearly with the AMD FreeSync™ technology that eliminates image stuttering and tearing.

User Comfort and No Strain

Video editors and graphic designers often spend long hours in front of the monitors. The flexible tilt angles allow you to position the monitor in a way that best suits your working style or posture without causing any stress. Work or play, eye fatigue is reduced with TÜV Eye Comfort. This feature allows you to control the blue light emission automatically. The anti-glare display with the In-Plane Switching panel makes it a practical choice for every business environment.
