

AS110D0

Get your monitor in the optimum position easily with AS110's mechanical gas-spring arm

Vesa Connection

Any monitor equipped with a VESA mounting grid (100x100 or 75x75) can easily be attached to the monitor arm. The VESA mounting system is a widely used solution that most monitors are equipped with. Four screws hold the monitor securely to the mount, by its centre of gravity.

Swivel & Tilt

Some monitor stands come with a limited tilt and swivel range. Using a monitor arm increases your monitor's range of motion dramatically: You can tilt the monitor in a wide range so it points upwards or downwards for the optimal viewing angle. The integrated swivel enables you to turn the display horizontally.

C-lamp or Grommet Mount

Choose between Grommet or C-lamp mount to sit the monitor arm firmly on your desk.

Cable Management

Using the detachable covers on the monitor arm, simply push through your cables inside the pre-allocated routes in the monitor arm. After fitting both power and display cables inside, close the covers and experience a tidy desk with neatly organised connections. Cables are kept in place even when moving the display or turning it into portrait mode.

Mechanical Gas Spring System

Smooth motion in extension, retraction, or changing orientation. The precise mechanical gas-spring allows easy adjustment with just a firm hand move, and the monitor stays sturdily in its adjusted position. Easily adjust it anytime to get the most ergonomic position. Spring tension is adjustable for lighter/heavier monitors for easy movement and firmness.

General

Supportable Monitor size max	27 Inch
Weight capacity	2~9 Kg
Product Dimensions	410x280120 mm
Material	Aluminium Alloy
Interior Structure	Metal spring
Base Type	Clamp Base, Grommet Base
Design Type	Ergonomic Type
Adjustable Height Range	320 mm
Tilt Range	- 45 °~+ 60 °
Swivel Range	- 90 °~+ 90 °
Pivot Range	360 °
Stretch Lenght Range	265 mm~325 mm
Vesa compitability	Vesa 75 x 75 mm, Vesa 100 x 100 mm
Weight capacity max	9 Kg
