

APD0502EU | Targus Dual USB Car Charger For Media Tablets & Mobile Phones

The Targus Dual USB Car charger for Media Tablets & Mobile Phones allows you to maximize your time on the road by keeping your mobile devices powered in the car. The DC auto charger can charge two devices at the same time including your Media tablet e.g. iPad, and mobile phone e.g. iPhone or two mobile phones, via your car's 12V outlet and the original USB cables supplied with your devices. Small and compact, this charger takes up very little space and comes in handy when you have forgotten to charge your devices at home or need more power on the go.

Functionality - Simultaneously power & charge your USB powered media tablet and mobile phone, or two mobile phones in the car, using the USB cables supplied with your devices

Construction - Small, lightweight and convenient
