

LaCie 2big Network

DESIGN BY NEIL POULTON

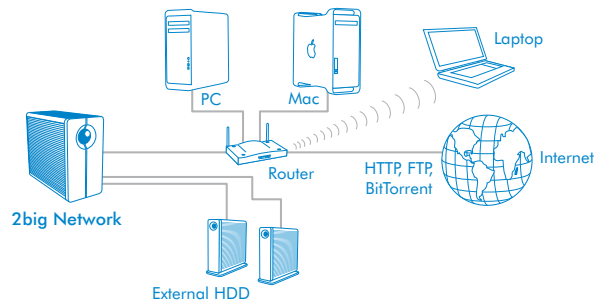

Professional 2-Bay RAID
Gigabit Ethernet

Essential Office Networking

The LaCie 2big Network offers professional, reliable, central storage for instantly storing, sharing, and backing up from any PC or Mac® on your network. Manage your home or small office network easily with this full-featured file server. With the LaCie 2big Network, you can share files among Windows®, Mac, and Linux users thanks to its SMB and AFP support; or connect remotely through FTP, HTTP, and HTTPS file systems.

NETWORKING VIA ETHERNET

2BIG NETWORK RAID FLEXIBILITY

MODE	CAPACITY	PROTECTION	SPEED
RAID 0	100%	★	★★★★
RAID 1	50%	★★★★★	★★★

RAID Protection

Quickly and easily select your RAID modes with the manual switch on the back of the drive. For maximum capacity, choose BIG with a RAID 0 array of the two hard drives. For maximum protection, choose SAFE (RAID 1) for automatic mirroring of one disk to the other (available capacity = 50%). The hot-swappable disk trays even allow maintenance without affecting your workflow; a defective disk can be replaced easily without having to turn off the LaCie 2big Network.

A Complete Backup Solution

Get extra security and increase data portability by incrementally backing up your LaCie 2big Network—on your own schedule—to an external hard drive through its USB ports using the built-in backup system. The 2big Network also comes with three client licenses for Genie Backup Manager Pro™ for Windows and three licenses for Intego Backup Manager Pro™ for Mac to install on each PC or Mac for client backups to the NAS. This software lets you reliably and efficiently back up your documents, emails, settings, or other digital assets; it supports compressed, encrypted, or image backups and implements a computer recovery function in case of a system failure.

- Share files and back up data to your NAS (Windows, Mac, or Linux)
- RAID 1 (mirroring) option for data loss protection
- Back up to external hard disks with USB ports
- Active Directory Support, Wake-on-LAN
- Stream your multimedia files to UPnP players

1TB* =

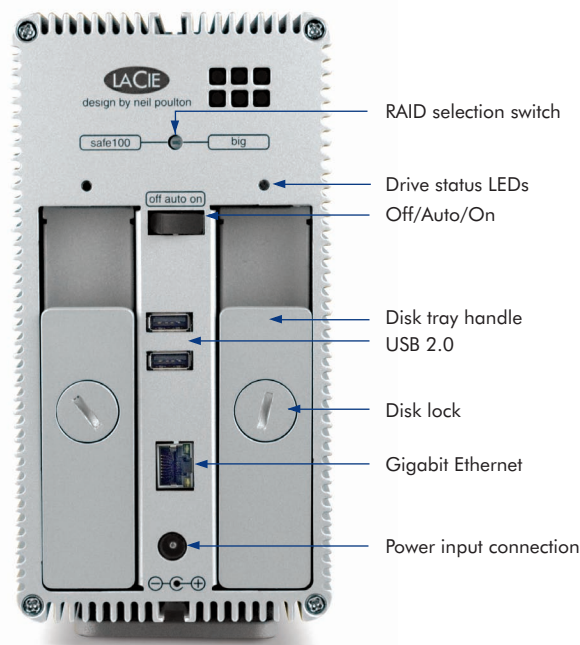

**200,000 office presentations
or 250,000 songs
1,000 movies****

A Multiprotocol Solution

SMB or SAMBA	Network file transfer for Windows, Linux, and Mac***
AFP	Network file transfer for Mac clients
HTTP	For accessing 2big Network admin and files using a Web browser
HTTPS	For those who prefer a secured connection using a Web browser
FTP	For accessing files remotely using FTP clients
Bonjour	For making files searchable through the network
BitTorrent™	For downloading large files from the Internet without a PC or Mac on

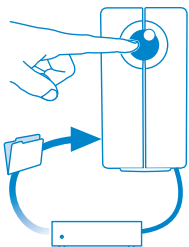

Customizable Data Access

Controlling access is simple; you can assign various security levels to shares, groups, user profiles, and public access. With Windows ADS domain support, there's no need to recreate existing user and group accounts in your Windows domain, making it easy to manage for IT Administrators. Thanks to the Wake-on-LAN feature, the LaCie 2big Network can even be switched back to operating mode from the client side.

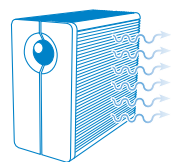

1-CLICK DATA SHARING

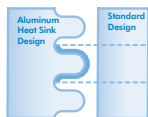

Automatically transfer files with one button.

EXCLUSIVE d2 HEAT SINK DESIGN

Provides 60% more area for heat dissipation & high reliability

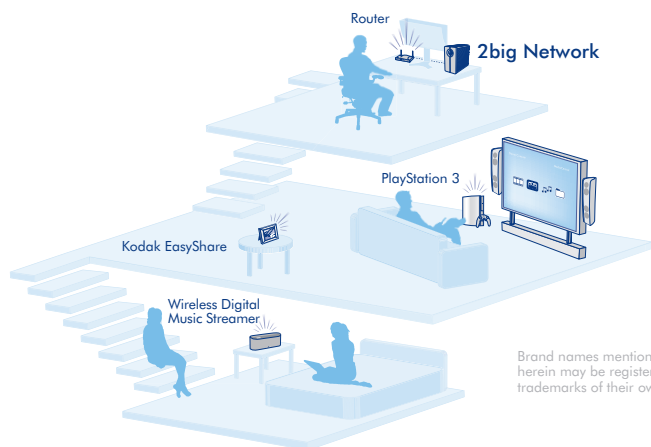

Trusted and Proven Design

With the 2big Network, LaCie's tradition of functional, high-end design continues. Its heat sink metal construction naturally draws heat away from the hard disk's internal components to help keep it cool and improve reliability, and its smart fan ensures quiet operation, when you need it most. The LaCie 2big Network can be stacked or rackmounted to conform to every work environment. The large glowing blue button adds more than character—it functions as a one-click data-sharing button for automatic file transfers from a USB key. Just push the button; your data is immediately sharable with your colleagues.

Multimedia Server Capabilities

With the LaCie 2big Network, it's easy to stream multimedia content to your television. You can play your media on any UPnP AV-compatible Digital Media Adapter (DMA), such as a PS3 or Xbox, without needing a computer—you can store the information directly on the LaCie 2big Network. In fact, the LaCie 2big Network has been developed to be compatible with any DLNA multimedia device, and also works with iTunes®. In addition, users can set the LaCie 2big Network to download torrent files automatically without the PC having to be turned on.

Apple® Time Machine Compatible

The LaCie 2big Network is compatible with Mac OS X v10.5 Leopard, including Time Machine, making it an ideal partner for your Mac. Time Machine automatically backs up your Mac's system files, applications, accounts, preferences, music, photos, movies, and documents to an external hard drive and you can easily go back in time to recover anything.

Features

- Ethernet for file sharing
- RAID 1 mode with automatic data-rebuilding
- Two hot-swappable disks with locks
- Two USB ports for storage expansion
- Time Machine compatible
- Configure vertically, horizontally, or rackmounted
- Cross-platform (Windows/Mac/Linux)
- Auto IP configuration access
- New Web-based administration page
- Assign shares, groups, user profiles, public, and guest access
- Active Directory support
- Email alert in case of failures

Minimum System Requirements

- Ethernet switch or router
- PC or Mac equipped with a network adapter
- Intel Pentium 500MHz processor / G4 with Mac Intel 500MHz processor or greater
- Minimum 512MB RAM
- Web browser (Internet Explorer 6.0, Safari 2.0, Firefox 1.5)

Box Content

- LaCie 2big Network
- Ethernet cable
- External power supply
- CD-ROM with User Manual and Utilities
- Quick Install Guide
- Drawer key

LaCie 2big Network

Capacity*	1TB	2TB	3TB
Item Number	301420	301421	301422
Interface	1 x Gigabit Ethernet 10/100/1000 Mbits		
RAID Modes	BIG (RAID 0) and SAFE (RAID 1)		
Network Protocols	File Server: SMB (Windows/Mac/Linux); AFP (Mac); FTP; HTTP; HTTPS; Apple Bonjour; and BitTorrent		
Administration	Easy-to-use network setup via Web browser; Auto IP configuration (DHCP client compatible and APIPA)		
Security	Various security levels: share, groups, user profiles, public, or guest access		
Expansion Ports	2 x USB 2.0 for additional storage		
Local Import and Backup	1-click file importing from external devices (hard disks, USB keys, etc.) using the front button Incremental backup support to external drives Backup scheduling to external drives		
Multimedia	UPnP A/V and DLNA Media adapter compatible iTunes server compatible		
Supported OS	Windows 2000, XP (SP 1 and SP 2), Vista™ / Mac OS X 10.2 or higher*** / Linux 2.4 or higher		
Software	Genie Backup Manager Pro software with computer recovery for Windows 2000, XP, Vista; Intego Backup Manager Pro software with computer recovery for Mac OS X 10.4; LaCie Network Assistant for Windows, Mac, and Linux		
Cooling System	Advanced heat-dissipating metal body with thermoregulated, quiet smart fan		
Dimensions	3.5 x 7.8 x 6.7 in. / 91 x 200 x 172 mm		
Weight	5.8 lbs. / 2700g		
Warranty	3-year limited		

ADVANCE CARE OPTION

Premium 3-Year Warranty

The LaCie 2big Network comes with a 3 Year Limited Warranty. For superior service, it also comes with an optional Advance Care Option, which can be purchased separately online within 30 days of the purchase date. Under the Advance Care Option, LaCie will immediately swap out the product without it needing to be returned first for minimal interruption of your workflow. LaCie covers all freight costs. Availability depends on the sales area. See www.lacie.com for details.

LaCie 2big Network Spare Drive

Item #	301462	301464	301465
Capacity	500GB	1TB	1.5TB

*1TB (Terabyte) = 1000GB. 1GB = 1,000,000,000 bytes. Total accessible capacity varies depending upon operating environment (typically 10–15% less). Capacity also varies depending upon RAID mode. BIG (RAID 0) = 100% capacity; SAFE (RAID 1) = 50% capacity.

**Calculations are based on 1GB/200 office presentations, 2.5MB/3-minute song, and 1GB/movie encoded in MPEG-4 or equivalent codec.

***Not compatible with LaCie Ethernet Agent and '1-Click' Backup Software
