

FIRE-SAFE® / Waterproof **Maxtor®** Hard Drive - 250GB QA0005

- The world's first and only affordable fire-resistant/waterproof hard drive
- Provides direct USB connectivity to laptop or desktop computers
- Enables critical data redundancy in the event of:
 - Computer crashes
 - System failures
 - Fire and water-related disasters
- Durable, injection molded housing protects hard drive from dust, dirt and moisture

Connect, Back up, Protect

Three easy steps to **complete** data protection

Connect

- Simple USB "plug in" connectivity
- Quick & easy on-screen setup

Backup

- Easily create scheduled, automatic backups of critical data

Protect

- **ETL Verification** – Proven third party independent product testing and certification validates protection against loss from:
 - Fire - ½ hour at 1550°F
 - Water - Full 24-hour submersion testing
- **Maxtor® SafetyDrill™** - Prepares, boots and recovers your PC's entire drive contents in the event of catastrophic data loss*

* Available for Windows systems only

FEATURES

On screen set up	Simply plug it in and connect the USB 2.0 cable (included). The award winning Maxtor® Hard Drive automatically appears on your desktop
Easy to use	"Point and click" navigation enables drive management, security settings and backup scheduling
Rugged design	Fire-Safe® / Waterproof design provides maximum data security
USB interface	USB 2.0 connectivity (cable included)
Maxtor® SafetyDrill™ Software	Protects against system failure, virus or spyware infection* - prepares, boots and recovers your PC's entire boot drive
File synchronization	Automatically synchronizes files between mirrored computers, ensuring consistent access to your most current data
Dual security levels	Data encryption and Maxtor® DrivePass™ offer dual password protection for all hard drive contents
Fire and Water Data Recovery Support Program	If the Maxtor® Hard Drive is damaged by fire or water, Sentry®Safe will attempt to recover your data free of charge, as well as provide you with a new unit
