

Access Your Files from Anywhere, Any Device

LinkStation™ Live

Store the data on your computer, along with photos and videos taken with your smartphone and camera in LinkStation™ Live while sharing them with family wherever they are. Not only sharing data but also you can enjoy watching videos saved on the NAS on networked TV at home. When you are out, it is possible to upload photos taken with your smartphone meaning you can share photos immediately with family. This NAS is sure to become the family's central home appliance.

Buffalo™ WebAccess gives you to access to your NAS via the Internet, with your smartphone, tablet or laptop. WebAccess is highly useful for downloading and uploading data from remote locations.

This NAS includes a Timer ON/OFF function that powers the drive only during programmed time periods. This prevents wasting electricity when the user forgets to turn off the NAS, You can program up to three timer settings. This cuts down on energy waste that results from leaving the power is on after office hours, on days of, or anytime the drive isn't needed.
