ST3620-2S-B2
JBOD Dual Hard Disk External Storage Device

Tapeless Backup Solution

PC MAC | USB2.0 56 MB/SEC

**Your Data Security Guardian!**

SOHOTANK ST3620 , design concept by SATA hard drive and host transfer USB2.0 interface, support JBOD function which not only is able to expand the capacity but easy to carry along by the small volume design. ST3620 designs special for the SOHO group and small-medium enterprises, hence, no matter SOHO group require expands data storage area or small-medium requires adding the storage space on the server is easy to connect with the ST3620. Through a USB interface connect with two SATA II hard disks can expand the capacity and reach 1TB easily, is the cost-effective of new choice for SOHO group stores the multimedia materials or small-medium enterprises as server back up system.

USB2.0 transfer interface | Environment Indicator | Hot-Swap Tray Design

- **Plug and play** by USB2.0 interface under Mac and PC
- **Support JBOD function** with two hard disks by one USB2.0 cable to save the complicate and inconvenient multiple cables management.
- **System auto-detector** design for temperature and fan status and warning by the purple LED light.
- **Hot-swap design** under JBOD mode, when hard disk failed is able to replace new hard disk online without shutting down the system.

ST3620 series design as small volume but built-in with 70W power supply with sufficient power providing. Furthermore, the chip integrated design despite PC or Mac group that only require one cable is able to detect two hard disk and not necessary require any other cables or wires to waste host connect port allowance.

Specifications

Model No	ST3620-2S-B2
Host Interface	USB 2.0 (56 MB/Sec)
Support Mode	JBOD
Chipset	JM20336 Chip
Drive Interface	2 x 3.5" SATA I 1.5GHz / SATA II 3.0GHz
Support Hot-Swap	2 Hot-Swap drive trays
LED Display	YES
Material	Aluminum Case
Cooling Fan	4cm Ball Bearing Fan
Power Supply	100-240V, 70 Watts
Dimension	122W x 205D x 105H(mm)
Weight	1.67 kg
