

## Vengeance LED Series

Stunning LED lighting and superior overclocking, all-in-one

SKU Live Date	June, 2016
Product Full Name/Title	CORSAIR Vengeance LED 32GB (2x16GB) DDR4 2666 (PC4-21300) C16 for DDR4 Systems – White LED
Part Number/UPC	CMU32GX4M2A2666C16 843591090308
Search Key Words	DDR4, overclock, DRAM, RAM, gaming RAM, performance RAM, Vengeance, speed, fast

Product Video	<a href="#">Product Video</a>
Compatibility List	Intel X99 and 100 Series motherboards ( <a href="#">full list on corsair.com</a> )

### Overview

Corsair Vengeance LED Series DDR4 memory modules are designed to provide a unique look with vibrant LEDs, bold color accents and a precision engineered light bar. Created specifically to pair with the design themes of mid-range and high-end motherboards and other PC gaming components.

Each module is built using a custom performance PCB for better signal integrity, and carefully screened ICs for superior overclocking and reliability on latest Intel® X99 and 100 series motherboards. Built-in XMP2.0 profile allows for easy, reliable overclocking.

With their purpose-built and eye-catching looks, the Vengeance LED modules match the design themes of mid-range and high-end motherboards and other gaming PC components.

## Features

Feature	Benefit
<ul style="list-style-type: none"> <li>Stunning LED lighting</li> </ul>	LED illuminated modules add lighting effect to the system, enhance overall system appearance and complete the stylistic intent of the overall system design
<ul style="list-style-type: none"> <li>Built-in heat spreaders</li> </ul>	Even and fast heat dissipation for high overclocking capability, larger dissipation surface area increases thermal throughput.
<ul style="list-style-type: none"> <li>Custom performance PCB and carefully screened RAM</li> </ul>	Built from a custom performance PCB and highly-screened memory ICs for superior overclocking potential.
<ul style="list-style-type: none"> <li>Performance and Compatibility</li> </ul>	Vengeance LED is optimized and compatibility tested for the latest Intel X99 and 100 Series motherboards and offers higher frequencies, greater bandwidth, and lower power consumption. XMP 2.0 support for trouble-free automatic overclocking
<ul style="list-style-type: none"> <li>Limited life time warranty</li> </ul>	Reliability and peace of mind

## Tech Specs

- Density: 32GB (2x16GB)
- Speed: 2666MHz
- Tested Latency: 16-18-18-35
- Voltage: 1.2V
- Format: DIMM
- LED: White
- Pin Out: 288 Pin
- Intel XMP 2.0
- Heatspreader: Anodized Aluminum
- Compatibility: Intel X99 and 100 Series motherboards ([full list on corsair.com](http://full.list.on.corsair.com))

## Accessories

### CMYAF

Corsair Vengeance Airflow with red, silver, and blue covers (not included)

## Vengeance LED Series

Stunning LED lighting and superior overclocking, all-in-one
