Ad Copy – Print / Web	Corsair's enthusiast memory solution for AMD Phenom II Black Edition DDR3 processors. The DOMINATOR family of memory represents the ultimate in performance technology engineering from Corsair. The DOMINATOR was designed to have the highest performing IC maximum over-clocking capability and efficient DHX cooling – all the while being stable and reliable. This 8GB DOMINATOR kit memory solution has been designed specifically to support the AMD Phenom II Black Edition processors when used in a dual channel DDR3 motherboard. This solution runs at an incredibly fast 1333MHz at CAS latency of 7-7-7-20. So not only do you get to run your memory system at 1333MHz but with these tight Latency timings your AMD system performance will rock. 8GB of memory is what Corsair recommends for the best performance
