Connects HDTVs, game consoles, and Blu-ray players to the Internet

Connects any device with a network port to existing Home Wireless Network.

Wi-Fi   Wirelessly connects networked home theater devices to your home network

Universal—works with any network enabled device. No need to buy a Wi-Fi adapter that only works with one type of device

Avoid long stringing cables. Freedom to place your home entertainment center anywhere and still connect to the Internet

Option to power by USB port means no exposed wire hanging from the TV
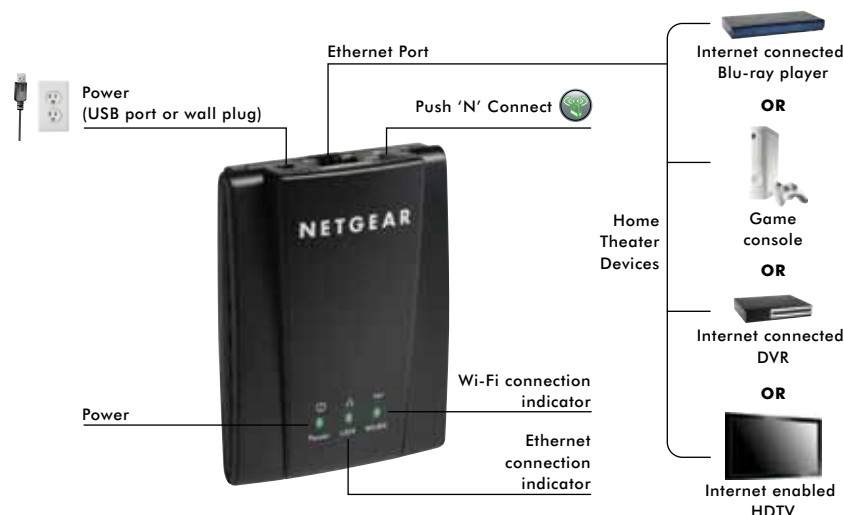

AV SERIES

NETGEAR AV Series products are designed with superior performance and features to enhance your home theater experience

The NETGEAR Difference

WNCE2001
✓ Universal compatibility
✓ CD-less, wireless installation
✓ Push 'N' Connect
✓ Flexible power option

This product is packaged with a limited warranty, the acceptance of which is a condition of sale.

*Basic technical support provided for 90 days from date of purchase.

† Maximum wireless signal rate derived from IEEE standard 802.11 specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. NETGEAR makes no express or implied representations or warranties about this product's compatibility with any future standards.

‡ "N", "Wireless-N" and "802.11n" refer to compliance with IEEE 802.11n specification version 2.0 only.

For best performance place adapter in front or to side of television.
