4G-capable USB Router

INSERT YOUR 4G USB MODEM!

doma
raw power
every hour

Maximize your broadband potential!

The Dovado DOMA 4G-capable USB Router allows you to insert your 4G/LTE or 3G mobile broadband USB modem and share out your Internet connection with ease via Ethernet and Wireless LAN, providing access to all your computers and wireless-enabled devices throughout your home or office. The router provides a round–the–clock connection, as one would experience with fixed broadband.

Connectivity

The DOMA offers four Ethernet LAN ports, an Ethernet WAN port as well as 802.11n 300 Mbps WiFi for local wireless connectivity. From here, your router will connect to the mobile broadband operator and provide all the clients in your network with the fastest possible Internet access. You can also instruct the Dovado DOMA via SMS to execute tasks such as a full restart of the device, connect/disconnect the Internet, and check the overall status.*

Easy to configure

The Dovado DOMA Router includes our unique implementation, the Mobile Internet Auto-Configuration Solution (MIAS). Upon inserting the USB modem into the router, this solution will get you online in no time after identifying which country and operator your SIM card subscribes to.

Technical Specifications

Connect to the future

DOVADO routers can be software updated to support the very latest 4G/LTE or 3G USB modems

A detailed and updated list is available on **www.dovado.com/modems**

Hardware Interfaces:

- 1 x USB 2.0 port (SmartUSB to re-power modem)
- 4 x 10/100Mbps Ethernet LAN ports
- 1 x 10/100Mbps Ethernet WAN port
- 802.11b/g/n WLAN Access Point
- 100-240VAC, 50/60Hz, power switching adaptor
- 5VDC, 2.0A input port

Router Features:

- NAT router with DHCP server
- Supports a growing range of USB modems
- Mobile Internet Auto-Configuration Solution (MIAS)
- 4G/LTE routing speeds of appr. 65–70 Mbps
- Multilingual Quick Setup Wizard
- Connection Tracker™ (maintains uptime)
- Appoint Ethernet WAN port or USB modem as primary Internet access.
- Automatic failover between Internet connections
- Dynamic DNS services
- Remote Access/Upgrade
- NTP clock
- Bi-monthly data traffic counter
- Port-Forwarding
- SPI-Firewall
- UPnP
- VPN Pass-through

Wireless LAN Security Properties:

- MAC Address Filtering for WLAN
- WEP 64/128 bit encryption
- WPA/WPA2 (TKIP/AES/Mixed)-PSK
- WPA2 Enterprise (requires a RADIUS server)

SMS Functionality (requires compatible modem)*:

- SMS Mailbox for sending and receiving messages
- Status Check of router via SMS command
- Remote Control of router via SMS command
- Connection notifications via SMS
- Periodic notification of data consumption via SMS

Physical:

Antenna type:	2 x External fixed 3dBi Dipole Antennas
Dimensions:	30 x 157 x 127 mm
Weight:	200 gr (router only)
LEDs:	WAN, LAN 1-4, USB, WLAN, POWER/SMS

Environment:

Operating Temperature:	0–40 degrees Celsius
Operating Humidity:	10% to 90% (non-condensing)

Certifications:

Type:	CE
