

PRO SLI BRIDGE HB

Part No: **100-2W-0025-LR, 100-2W-0026-LR,
100-2W-0027-LR, 100-2W-0028-LR**

EVGA has once again amped up the SLI bridge with the EVGA PRO SLI BRIDGE HB. These new, completely redesigned SLI bridges come with new features and improved performance. Included is an RGBW color switcher that allows you to choose Red, Green, Blue or White color. Also, with the new High Bandwidth technology on NVIDIA GTX 10 series cards, you get double the available transfer bandwidth compared to previous generation cards.

FEATURES

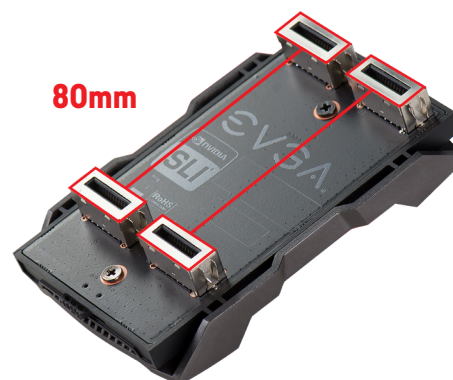

- Separate models to support various card spacing configurations
- Optimized for NVIDIA Surround, 4K+ and 120Hz+ gaming
- EVGA logo illuminates and can be configured to display in Red, Green, Blue or White color.
- Compatible with GeForce GTX 1080/1070
