

The EVGA PowerLink has one primary function: to make your PC look even more awesome. This adapter allows you to reroute the power inputs for your graphics card, giving you improved case airflow, a lower profile height, and best of all, cleaner wiring setup. It even supports a unique configuration system allowing you to mix and match power input types to match your EVGA graphics card. The EVGA PowerLink is the best way to revolutionize your cable management.

- Dramatically improved cable management
- Supports a variety of different PCI-E connections
- Adjustable connector spacing
- Integrated Solid state capacitors for in-line power filtering
- Easy Installation
