

## Red Devil AMD Radeon™ RX 6800 16GB GDDR6

### SPECIFICATION

|  |                                    |                      |   |
|--|------------------------------------|----------------------|---|
| EAN CODE   | 4713436173151                      | Bus Standard         | PCIe 4.0  |
| Graphics Engine  | AXRX 6800 16GBD6-3DHE/OC           | Display Connectors   | 1 x HDMI 2.1 , 3 x DisplayPort 1.4                    |
| Video Memory   | 16GB GDDR6                         | Form Factor          | ATX   |
| Stream Processor   | 3840                               | Cooler               | 3 Slot Triple Fan                                     |
| Engine Clock   | Game 1980MHz(OC)/ 1905MHz(Silent)  | Power Connector      | 2 x 8-pin   |
|  | Boost 2190MHz(OC)/ 2140MHz(Silent) | OpenGL               | 4.6   |
| Memory Clock   | 16.0 Gbps                          | DirectX® Support     | 12  |
| Memory Interface   | 256-bit                            | Minimum System Power | 750W  |
| *Note:Game Clock is the expected GPU clock when running typical gaming applications, set to typical TGP (Total Graphics Power). Actual individual game clock results may vary. |                                    | Card Dimension(mm)   | 320*135*62 mm   |
|  |                                    | Accessories Bundle   | Addressable RGB LED Cable<br>Quick Installation Guide |

### FEATURES

#### Dual BIOS

Choosing the BIOS that fits your need: better overclocking or silent operation.

#### Multiple Triple Fan

The 2X 100mm and 1X 90mm optimized static pressure fan design provides more air flow and better cooling circulation.

#### Output LED

No flashlight needed when plugging in the output! LED illuminated ports will easily lead you to the outputs you are looking for.

#### Devil Zone RGB

Choose your unique RGB effect through the Devil Zone RGB software. Additionally, simply plugging an ARGB LED cable in a motherboard will allow for the Red Devil RGB light to be seamlessly synced with motherboard.

#### Mute Fan Technology - 0db –Silent gaming

Mute Fan Technology intelligently turns off the fan below 60°C , providing silent gaming during medium and low-load while reducing power consumption.

#### Exclusive New Cooling-Fan Design, Advanced Cooling Solution

Compared with previous generation, PowerColor Graphics Card uses an exclusive new cooling-fan design to increase airflow and air pressure by up to 60%, achieving new level of thermal performance.
