F-Series 10

Gaming Mouse Pad

Model Overview

Func F-Series is a single-sided, semi-hard mouse pad constructed of high quality materials. The surface texture incorporates a specially selected, low profile, textured polycarbonate that exhibits exceptional traction capabilities; also known as the "F10.s". The F10.s is a fine textured surface and popular with those who prefer the feel of minimal traction. The F-series mouse pads are available in different sizes to fit different game styles.
