Model Overview

The HS-260 has been designed to help you through long gaming sessions with comfortable, breathable ear cups and an extremely accurate sound image. The closed ear cup design blocks background noise allowing you to stay focused on your game, while the controls are located on the ear cup for easy access allowing you to keep your eyes focused on the screen with minimal distractions. The added features of the removable microphone and detachable cord solution ensure that you have a well-rounded, multi-functional gaming headset.
