MS-3²

Gaming Mouse

Ergonomically designed Grip Intelligence™

The MS-3² is ergonomically designed to minimize hand strain and stress in order to allow you to keep your eyes focused on the screen and not on your grip.

Unique T+4™ thumbzone button placement for more accurate gameplay

When you find yourself in a critical play movement, the importance of easily accessible buttons and an optimized Thumbzone is crucial to avoid miss-clicks.

Switch instantly to another dpi holding down the Instant aim™ button

Do you hate those moments when your opponent sneaks up on you from behind and you really need to turn 180° but realize that your sense is set for sniper camping? With the Instant aim™ button pushed, your dpi is instantly changed as long as you keep the keystroke down.

Carry your settings with you thanks to onboard memory, storing up to 3 profiles

The MS-3² has an onboard memory storing up to 3 profiles for ease and comfort.

Advanced macro editor records up to 10 actions live

The macro editor handles real time recordings and is able to save up to 10 commands in one macro with a total of 60 macros accessible from any profile. All macros recorded are available to all user profiles.

Adjust your mouse exactly to your gameplay style

Ability to fully customize button assignment, profile settings and macro recordings. On top of that, angle snapping, lift off distance and polling rate can be adjusted to your personal liking.

Customizable LED-light system with profile indication

Apply any of the 16.8 million colors individually or simply turn the LEDs off. The LED system can be used as a profile indicator or simply to match up your mouse with other peripherals on your desk.

Built to last with only the best components available

Equipped with OMRON switches guaranteed 10 million cycles paired with a 2 years warranty.

Firmware upgrade tool

Enhanced features and functions with new firmware version, no need to cash out for a new mouse.

Plug n play, no need for installations

MS-3² is completely plug n play ready; installation is only needed to personalize the mouse to fit your gameplay style.

Model Overview

Made with the sole purpose of giving you the advantage over your opponents, Func MS-3² stands out from the rest with its unique, performance driven line-up of features. The unprecedented possibilities of customization and extensive macro settings allow it to fit any gamestyle. The ergonomic design is the result of many development hours and studies of the human hand in order to give you the solid grip that allows you to keep your eyes focused on the screen. All buttons have been carefully placed to optimize the reaction time. Ladies and gentlemen, this is the advantage. Perfected.
