

## HyperX FURY Pro Gaming Mouse Pad

### A surface above the rest.

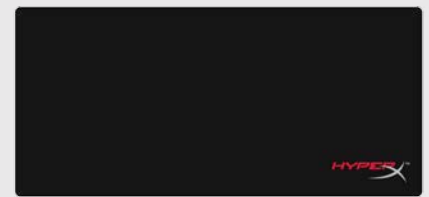

HyperX™ FURY Pro Gaming Mouse Pad has a high-quality fabric pad that's soft yet resistant and heat-treated for a controlled glide to put you in the lead, whether you're a gamer in a death match or a professional racing against the clock.

FURY's natural rubber and cross-weave underside provide padding for your wrist to keep you comfortable and supported and help the pad grip the surface firmly for more stability.

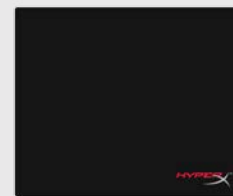

Available in four sizes from 290–900mm wide and 240–420mm high, with 3–4mm pad thickness, HyperX FURY fits any style and space requirement and is a great value that gives you greater surface without a higher cost. The compact sizes are ideal for mobile computing and LAN parties, while the largest size covers a full-sized desk for a smooth work or play surface. It's easy to roll up or fold and wear-resistant so the pad keeps its shape through epic battles, late-night work sessions and more.

HyperX FURY mouse pad is backed by a two-year warranty and legendary HyperX quality.

- > Superior quality fabric pad
