	Dimensions (LxWxH)		130x100x35mm	100x80x35mm	

*Local monitor only

With the CE-250 KVM Extender System - you can take complete control of all your computer systems from a remote console - up to 150m (500 ft) away - using neat reliable, and efficient Category 5 cable. With custom ASIC intelligence built in, the unit senses the distance to the system and automatically adjusts the gain to ensure complete reliability and compatibility.

Features:

- * Built in ASIC for Greater Reliability and Compatibility
- *Reliable Category 5 Cable to Connect the Local and Remote Units up to 150m(500 ft)
- * Dual Console Operation Control Your System From Both Local and Remote PS/2 Keyboard, Mouse, and Monitor Consoles
- * Push Button Selection of the Active Consoles
- * High Resolution Video Up To 1280x1024
- * Supports VGA, SVGA, and Multisync Monitors
- * Local Monitor Supports DDC; DDC2; DDC2B
- * Automatic Gain Control Automatically Compensates for Signal Strength
