

D'Feldt Audioengine 4P

Premium Passive Bookshelf Speaker

The D-4P passive speakers are full-sounding bookshelf speakers in a satellite-sized package. The goal with D-4P was to design a small but powerful bookshelf speaker for people that already have surround receivers or amplifiers and are looking for the same D'Feldt Audioengine sound and quality in a passive loudspeaker.

The D-4P passive speakers are perfect for digital hybrid amplifiers (Class-D, Class-T, etc.) as well as most stereo receivers, integrated amps, and tube amplifiers. The D-4P has a 4 ohm impedance rating but will sound great when connected to almost any receiver or power amp with 4, 6 or 8 ohm speaker output impedance.

Type	2-way passive, front-ported
Sensitivity	88dB (2.83v@1m)
Frequency Response	58Hz - 22kHz
Nominal Impedance	4 Ohms
Crossover Frequency	2.8 kHz
Amplifier power	10-125W per channel
Tweeter	3/4" silk dome
Woofer	4" Kevlar cone
Enclosure	3/4" MDF
Inputs	Gold-plated
	5-way binding posts
Magnetically Shielded	
Weight each	2.75 kg (6 lbs)
Shipping weight	6.5 kg (14 lbs)
Dimensions each (H x W x D)	228 x 140 x 165 mm
Shipping box dims	330 x 460 x 228 mm
Finish options	Satin Black, Hi-Gloss White
