

D'Feldt Audioengine 8S

Premium Powered 8" Subwoofer

The D-8S has a super-fast woofer designed for audio and home theater performance. It features an anti-resonant steel frame and heavy-duty rubber speaker surround for accurate low end. The D-8S's bottom-firing and front-ported design means you'll hear quick, precise bass with low distortion, even at higher volume levels. In other words, this is a tight, smooth, and natural-sounding little subwoofer.

Custom-designed and handcrafted wood cabinets with high-gloss white or satin black finish make the D'Feldt Audioengine 8S a true work of art. Cabinets are made of rock solid 1-inch thick, internally braced MDF to eliminate cabinet vibrations which means distortion-free, accurate response.

Type	Powered subwoofer
Power output	250W peak power total
Amplifier type	Dual Class AV monolithic
Inputs	3.5 mm stereo jack, RCA
Outputs	RCS L/R full-range
Voltages	110-240V, 50/60Hz
Drivers	8" long-throw woofer
Ports	Single, front
Signal-to-noise	>95dB
THD	<0.05%
Frequency response	27Hz-180Hz \pm 1.5dB
Sensitivity	88dB SPL
Input impedance	10k ohms unbalanced
Crossover frequency	50Hz - 130Hz
Phase	0-180°
Standby power	8W
Protection	Output current limiting, thermal over-temperature, power on/off transient protection.
Dimensions (H x W x D)	285 x 285 x 285 mm
Weight	12.7 kg
Shipping weight	13.6 kg
Shipping box dims	432 x 432 x 432 mm
