

AVerTV Mobile - iOS EW330

Enjoy Live TV Anywhere

Supports
DVB-T / ISDB-T

Available on the
 **App Store**

Made for
   iPod iPhone iPad

AVerTV Mobile is coming to an iOS screen near you! With its compact design, AVerTV Mobile requires only one simple plug-in to turn your Apple device into your personal TV. Plus, experience DVB-T/ISDB-T TV through a complementary TV-watching app – no Internet connection required! The exclusive high-gain antenna with excellent TV signal reception is included to guarantee users a superior TV-viewing experience.

A number of PCTV functions are supported, including auto detection for DVB-T/ISDB-T TV signals and auto scans for full channels. Recording, bilingual audio, and an electronic program guide (EPG) are offered as well. In addition, the advanced built-in battery allows your TV running for a long time: watch TV for over 2.5 hours, or keep it on standby for up to 30 hours.

AVerTV Mobile - iOS EW330 | Enjoy Live TV Anywhere

Features

Watch Digital TV on Apple Device

Watch digital TV and programs from your Apple device.

No Internet Connection Required

By receiving advanced signals from the high-gain antenna instead of the Internet, users can access TV Internet-free! The high-gain antenna is included with the product to help with receiving advanced signals.

Free TV-Watching App

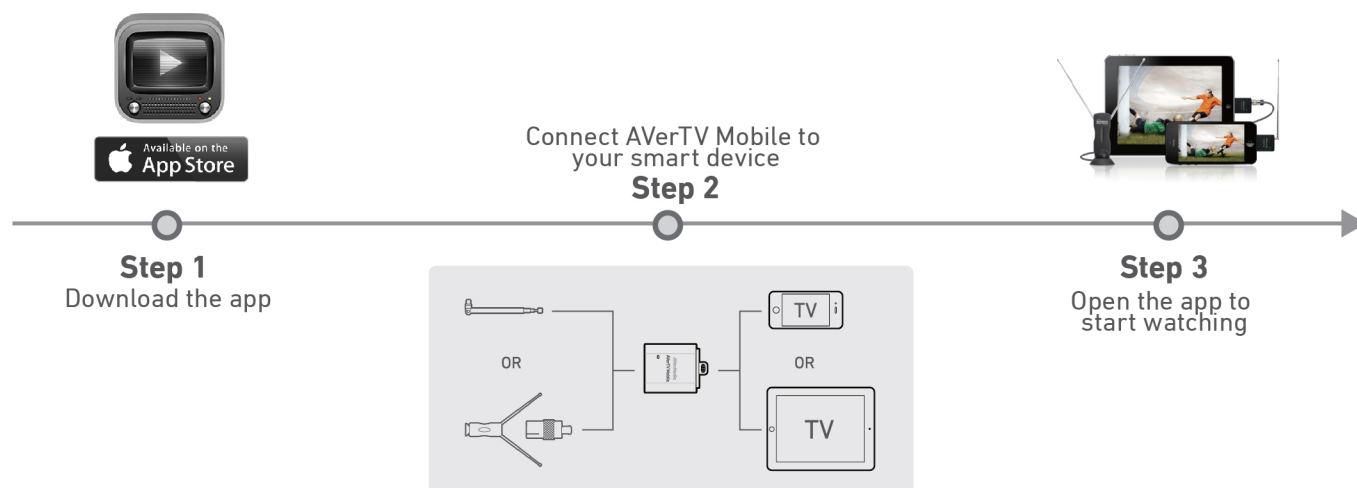

A complimentary app developed especially by AVerMedia that supports automatic DVB-T / ISDB-T TV signal detection will be available on App Store. Full channels scan, EPG, and bilingual audio are included as well.

Ultra – Compact with Built-in Battery

AVerTV Mobile is extremely portable and sits lightly in your hand. Plus, the built-in battery life will keep your TV running for a long time: watch TV for over 2.5 hours, or keep it on standby for up to 30 hours.

Complete each step in order before using AVerTV Mobile
