REVOLUTIONNIZE YOUR GAMEPLAY!

Switch easily from your console audio, using Radio frequency connection, to other audio devices, using Bluetooth® connection.

Eliminates the «joystick drift» issue: thanks to magnetic Hall Effect technology, the joystick will always return to its initial position without calibration error. The lifespan of the joystick is more than doubled.

Adapt to any in-game situation with adaptive trigger travel length: easily switch from a long press to a short press setting using the trigger blocker system.

Advanced customisation through the dedicated app
