

ULTIMA1

Ulti-Mat Racing Chair RS7PU (Micro Leather)

Racing chair that makes a difference to you

The choice for you - Ulti-Mat Racing chair. This Racing chair will rise up a standard for office and esport chairs. All Ulti-mat chairs have been moulded and designed in combination of office, e-sport and rally professionals to meet the best quality. You can see the difference only by looking the chair but there is much more inside.

Product:

RS7PU chairs are "bucket" seat with black main colour in all chairs. Touch of different colour gives the chair its personality. Chairs micro leather surface will last long period of e-sport sessions. This Gaming Chair gives you a great comfortable feeling for office and for gaming sessions. By purchasing Ulti-Mat chair you can be absolutely sure that you have picked up a chair with best quality. This chair offers you 180 degrees turning backrest. So if you feel tired in a middle of e-sport session you can take a rest without changing place.

RS7PU star base is high strengths and durable nylon base. The base holds up 1200kg of weight. Wheels are PU skid proof and muted wheels "stealth" wheels. The maximum permitted load for this chair is 185 kg. Gas lift is 4 class "high". So you don't have to purchase a new longer gas lift for this chair. The mechanism is a high quality synchro TILT mechanism that can be found normally in more expensive chairs. Synchro TILT mechanism allows you to fix the seat in a tilt or locked position if desired. The armrests can be adjusted in height and can be turned in or out. Armrest has been made from plastic and metal components that will not break.
