

Logitech® X-540

Immerse yourself in the game with adrenaline-pumping surround sound

Immerse yourself in the game with the outstanding surround sound of Logitech's X-540 speaker system. Dual driver satellites use patented FDD2™ technology to eliminate the uneven response created by conventional dual driver designs. Matrix mode creates 5.1 surround sound from 2-channel sources. The innovative center channel speaker clips onto the top of most flat-panel LCD monitors. The ported subwoofer features dynamic, real-time equalization that maximizes bass while minimizing distortion. The X-540 also features a convenient control pod with volume and subwoofer level controls, as well as a headphone jack for private listening. Satellite stands rotate for easy wall mounting.

Outstanding surround sound for gaming

- Frequency Directed Dual Driver (FDD2) technology produces a uniform soundfield anywhere in the room and eliminates uneven response and hot spots created by conventional dual driver designs.
- Matrix mode automatically creates 5.1 surround sound from common 2-channel stereo sources.
- Center channel speaker clips onto the top of most flat-panel LCD monitors.
- Satellite speaker stands rotate for easy wall mounting.
- Dynamic, real-time bass equalization maximizes bass response while minimizing distortion.
- High excursion, ported, down-firing subwoofer displaces more air for deeper bass.
- Master volume, subwoofer level and matrix button are all conveniently placed on the control center.
- Connect headphones to enjoy your games and music privately.

Logitech® X-540
