FUNCTIONS

• Steps, Distance, Active Minutes, Calories

Users can easily track their steps, active minutes & calories burned

• Sleep Tracking

Sleep duration & movement are tracked throughout the night

• Goal Tracking

Users come to rely on the Orbit by setting, pursuing & reaching goals

• Happy Tracking

With the click of a button, users can make note of their mood

• Progress Indicator

Users effortlessly monitor progress with the indicator bar on their display

• 7-Day Memory

Users can save activities and data for up to seven days

• Time & Alarm Modes

Orbit displays the time and users can also set multiple alarms

• Vibration Mode

Convenient, subtle alerts help keep users on track

• White OLED Display

High-resolution, lightweight, easy to view in bright or sunny environments

• Rechargeable Battery

Long-lasting, rechargeable battery offers convenience and reliability

• Viewer Mode

Orbit acts as users' second screen, displaying distance, elevation change & more

• Wireless Sync

Data is automatically, wirelessly transferred from Orbit to users' smartphones

COMPATIBLE WITH RUNTASTIC APPS

Users can monitor real-time activities & stats with Orbit in a number of ways – as a stand-alone device or with a Bluetooth® Smart enabled smartphone* & Runtastic apps.

* Works with iPhone 4s and more recent versions and Bluetooth® Smart Ready Android™ devices running Android 4.3 and more recent versions. Compatibility list at: hardware.runtastic.com
