# NX80 Cordless Laser Mouse for Notebooks

## Mobile productivity within budget

Boost productivity and efficiency on the move with Logitech's NX80 Cordless Laser Mouse. Packed with innovation, the NX80 features Logitech's advanced 2.4 GHz cordless technology and hyper-fast scrolling.

Fly through long documents at hyper-speed, or shift instantly for precise, click-to-click navigation of detailed lists, slides or spreadsheets. MicroGear™ technology with scroll toggle lets you instantly toggle between scrolling modes simply by pushing down on the wheel. With 1000 dpi resolution, high performance laser tracking gives unmatched precision and control on most surfaces, while 2.4 GHz Cordless technology ensures a robust wireless connection with no risk of interference. The storable micro-receiver makes NX80 truly portable and plug-and-play in any work environment.

USB Connectivity and driver-free installation means low IT maintenance. Its packaging is optimized for business, and is easy to ship, store and recycle. 3-year limited hardware warranty.
