Design Concept

Sileo 500 is Cooler Master's latest introduction of a silent mid-tower chassis. It is fully equipped with acoustic foam sound insulation material on the top, bottom and sides. It also includes anti-vibration pads inside the detachable HDD trays to reduce noise and noise reduction pads for the power supply. The Sileo 500 is also has tool-free 5.25" and 3.5" drive bays for easy installation and maintenance. A true testament to silent computing.

RC-500-KKN1-GP

Specifications

|	
Color	Black
Dimension	(D)480 x (W)200 x (H)432 mm
Weight	9.7 kg ; 21.38 lb
M/B Type	Micro-ATX, ATX
5.25" Drive Bay	5 Exposed
3.25" Drive Bay	1 Exposed ; 4 Hidden
Cooling System	Front: One 120 x 25mm standard fan
	Rear: One 120 x 25mm standard fan
I/O Panel	USB X 2, eSATA X 1, Mic X 1, Audio x 1
Power Supply	Standard ATX PS2 (optional)

Front   Rear   Side

Features

- Sound-proof design for a quiet computing experience
- Subtle ventilation holes located between side and front panels
- Easy access front I/O panel with support for e-SATA
- 5.25" and 3.5" tool-free design for easy installation and upgrade
- Aluminum bezel with Elegant design
- Detachable anti-vibration HDD pads for noise reduction
- Stylish front LED

Super Silent Operation

> Acoustic foam sound insulation for quiet computing experience

> Anti-vibration noise reduction pads

Other Highlights

> Detachable anti-vibration HDD pads for noise reduction

> Stylish front LED

> 5.25" and 3.5" tool-free design for easy installation

> Spacious interior to accommodate for various computer components (optional)
