RC-600

RC-600

## Introduction

■ Model Number: RC-600-KKNI-GP

Cooler Master has developed yet another top quality mid tower chassis, Gladiator 600 (RC-600). It has a pure elegant black exterior, exuding an understated but extraordinary mystery that delivers heroic style. The chassis has a fully meshed front panel with a 120mm blue LED fan for excellent airflow. Furthermore, Cooler Master uses a burnished material on the I/O panel, symbolizing the victory belt of a true gladiator.

## Product Features

### ■ Cable Management System

The cable management for Gladiator 600 is able to support the cables whilst being routed through the chassis from device A to B, the motherboard tray includes cable access openings which cables can be routed in or out from the chassis, also to prevent causing damage for cables/components.

### ■ Superior Airflow Performance

Front and top mount 140 mm fans and side ventilation for the best airflow performance, Gladiator 600 also supports total of five 120 mm fans or four 140 mm fans plus one 120 mm fan.

### ■ User Friendly

- Front I/O panel for easy access with front fan blue LED switch.
- Cable management and CPU cooler retaining hole design for quick cable routing and installation.
- PSU bottom fan can be set up facing up or down
