LANBOY AIR  
MODULAR CASE

ENCLOSURES

**MODULAR**  
OPEN-FRAME CASE

Meet the LanBoy Air. Nearly every part on this case, even the motherboard and PSU mounts, is modular and customizable. Up to 15 exhaust fans create positive air pressure inside the case that blows dust and heat out through panel perforations. Up front, the LanBoy Air's AirMounts™ HDD mounting system literally suspends drives in mid-air for unsurpassable vibration and noise resistance. Along with its two internal 2.5" SSD bays and a front-panel USB 3.0 port, the LanBoy Air is the last word in high-flexibility PC case design.

- AirMount™ HDD suspension mount system – kills vibration and mountable in 3 directions

- Variable speed fans with stepless control knobs provide practically infinite range of cooling settings

- Open-frame mesh panel construction – cool air in, dust and heat out
