

DF-30

Dark Fleet Series

Soaring above the competition

Meet the swifter, lighter Dark Fleet enclosure, the DF-30. On the front reside two Fleet-Release™ access doors packing tool-free washable fan filters allowing rapid access to a massive array of drive bays – 11 total. Each door comes standard with a variable-speed, knob-controlled 120mm blue LED fan that allows precise tuning of your build's cooling/noise level balance. Along with both internal and external hot-swap 2.5" SATA (SSD) bays for smoothly integrated fast data transfer, the DF-30 is the enclosure providing heavy-duty performance and versatility in a swift, convenient mid-sized package – soaring up and above the competition with style.
