

Antec
Believe it.

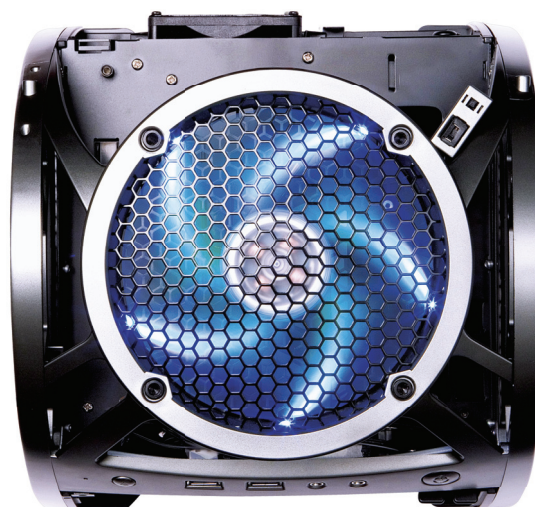

**mini
Skeleton - 90**

A Miniature Revolution.

Who are you calling *cute*? The Mini Skeleton-90 by Antec features the same revolutionary open-air design as the Skeleton, only in a ridiculously tiny Mini-ITX frame. With five drive bays, one expansion slot and a 0.8mm cold rolled steel frame, the Mini Skeleton-90 can do it all: from petite desktop option to full-blown home theater PC. And with a top 150mm TriCool™ blue LED fan, the Mini Skeleton-90 is cool, compact and, sure, maybe even charming. But definitely *not* cute.

SPECIFICATIONS:

- **Open-air design** for extraordinary airflow and exclusive style
