

## Super Quiet Mini Desktop Case

Decrease your system footprint and increase your desk space with the NSK1480. This microATX form factor desktop case is the perfect solution for anyone who wants to keep their system off the floor without losing valuable real estate on their desk. No more bending over and reaching under your desk just to insert a CD because now, it's all right there in front of you! On top of that, the NSK1480's unique dual chamber design and its high-efficiency 80 PLUS® certified power supply keep your components cool and lower your electrical bill. Build your system with the NSK1480 mini desktop case and get all that leg room back.
