KÜHLER H2O 1220

The Antec KÜHLER H2O 1220 provides liquid cooling for your CPU and delivers best-in-class performance in a quick, easy-to-install package. Unlike traditional liquid cooling systems, this self-contained unit comes prefilled and requires no maintenance. The dual 120 mm voltage-controlled (PWM) fans and enlarged copper cold plate ensure quiet, efficient cooling, while the 240 mm radiator maximizes cooling surface area to dissipate heat from any CPU on the market. Lastly, the included software helps you monitor and control the Antec KÜHLER H2O 1220's performance and allows you to customize its stylish RGB LED. Designed to unlock the maximum potential of your CPU, the Antec KÜHLER H2O 1220 delivers exceptional cooling when you need it the most.

SPECIFICATIONS:

Fan Speed
600 – 2400 RPM

Radiator Dimensions
273 x 120 x 27mm

Cold Plate & Pump Height
1.1" / 28 mm

Tubing Length
12.8" / 326 mm

Cooling Liquid
Safe, environmentally-friendly, anti-corrosive

Net Weight
2.7 lbs

CPU Socket Compatibility
Intel LGA 2011 / 1155 / 1156 / 1366,
AMD AM2 / AM3 / AM2+ / AM3+

Warranty
3 years
