EVGA **EVGA TORQ X10 Carbon**

Introducing the EVGA TORQ X10 gaming mouse. Built with the highest quality materials, this mouse was designed from the ground up to satisfy the needs of the hardcore gamer with a high quality laser sensor that provides up to 8200 DPI, an adjustable weight system, nine programmable buttons and a unique sizing system that allows you to adjust the height of the body.

We didn't stop there though. The EVGA TORQ X10 features the highest quality Omron switches with a lifespan of over 20 million clicks. We also included a full metal base that provides solid construction, the latest Avago 9800 laser sensor providing up to 8200DPI with 1000Hz polling rate, a 6FT silver coated USB cable, and much more.
