3.5" Drives Location

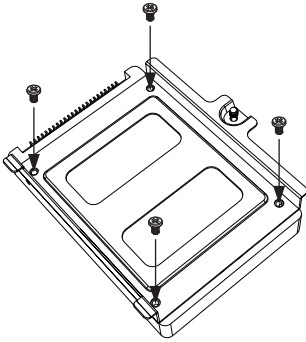

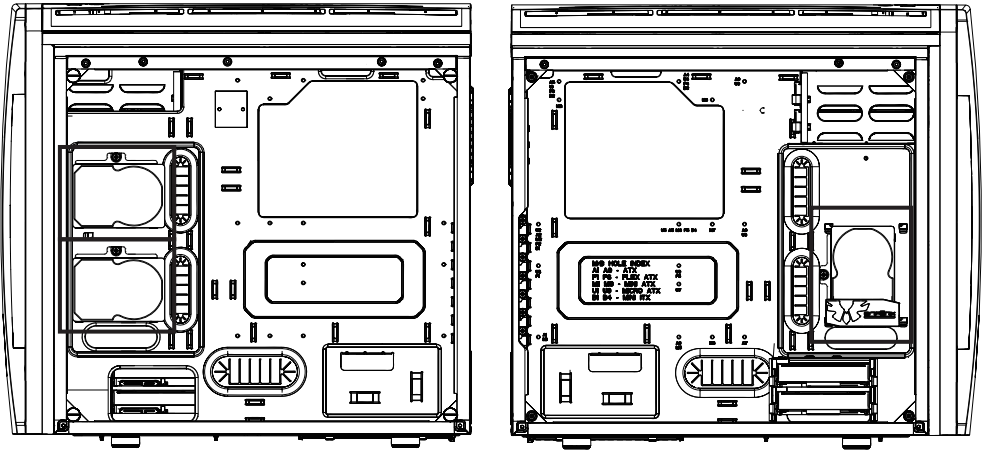

Installing 3.5" Drives

- Consider the orientation of the drive, then clip on the drive sleds, with the clips facing the left side of the case.
- Slide the drive into the cage until it locks in place, push the sled clips together and pull on the drive to remove it.

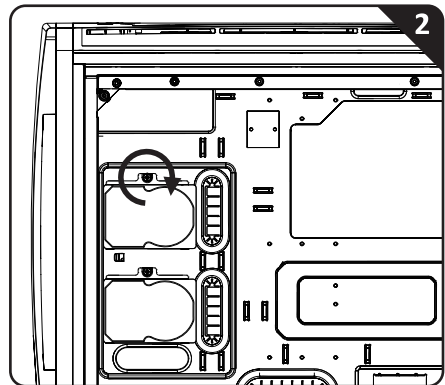

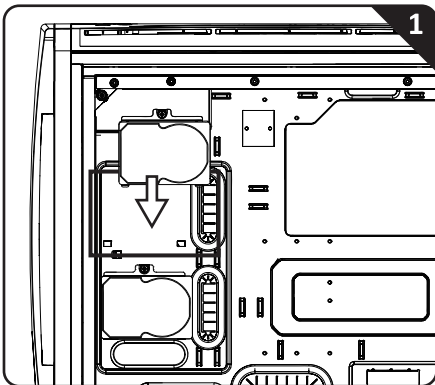

2.5" Drives Location

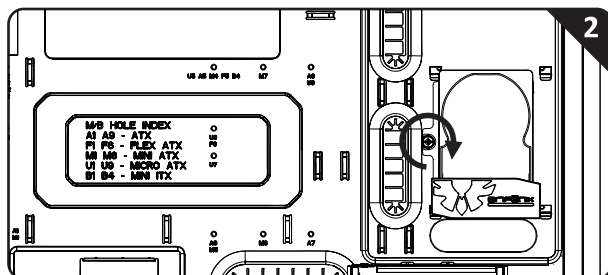

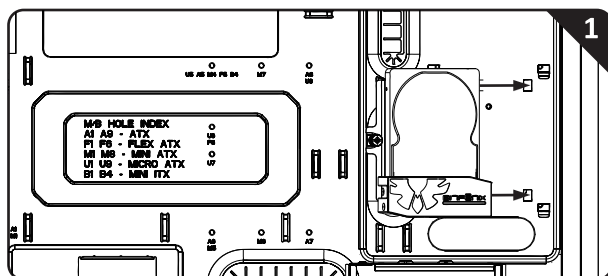

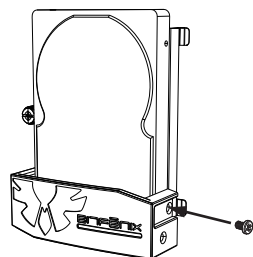

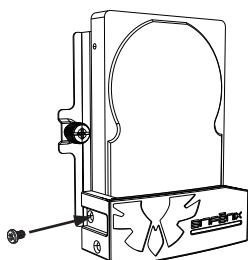

Installing 2.5" Drives

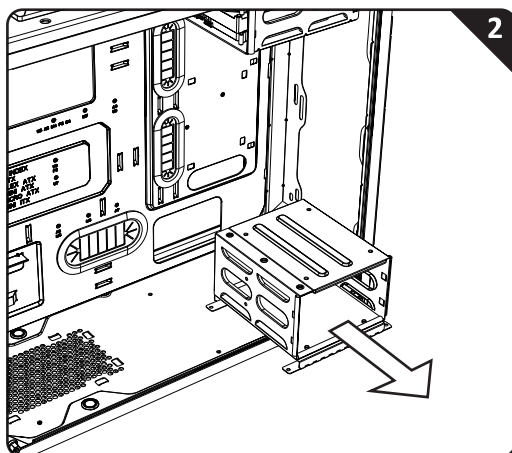

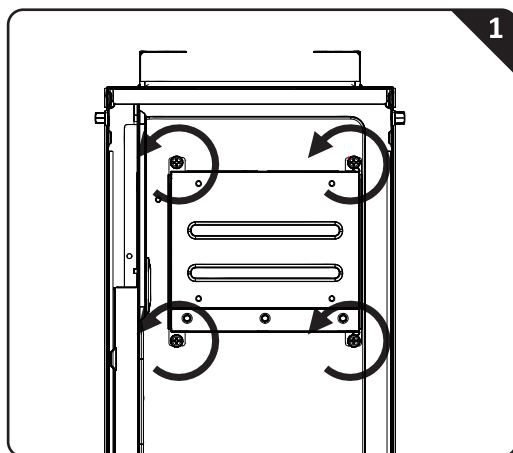

- Align the hard drive mounting holes to the bracket. Fasten with four included screws.
- Insert the bracket extrudes to indicated cutouts. Tighten the thumbscrew by rotating clockwise.
