

## LED STRIP

Paint your home in light.

Paint your room with 16 million shades of light.

Or fill it with the perfect shade of white.

LED Strip is the cutting edge of Z-Wave lighting. Built upon Aeotec's leading LED Bulb technology, LED Strip can be used to both decorate a home and to functionally light it. Though it's available in lengths of 1 to 5 metres (3' to 16'), LED Strip is only 3mm (0.12') thick, meaning that it can be installed in minutes almost anywhere. Via Aeotec's Gen5 technology, it offers colour and white light selection, along with dimming and scheduling.

### Product highlights.

- Power supply: 24V/3A DC Adapter
- Max operating power: 72W
- Max standby power: 1.2W
- Rated colour temperature: 5000K
