

The Vesa

We're all about pushing boundaries and delivering innovation, but sometimes you just don't want to mess with perfection. The vesa adapter, when used in combination with the Wallee wall mount disk, turns your Wallee into a solution fully compatible with the thousands of swing arms and mounts that adhere to the VESA industry standard. With the Vesa you've got an entire world of options that extend what you can do with, and where you can mount your Wallee.

Suites both VESA-D 75 and 100 formats
