## System requirements

### Windows®

- 2GHz or faster processor
- Microsoft® Windows XP with Service Pack 2 or 3 or Windows Vista®
- 1GB of RAM
- 1.5GB of available hard-disk space
- Color monitor with 16-bit color video card
- Microsoft DirectX 9 compatible display driver
- CD-ROM drive
- Web features require Microsoft Internet Explorer 6 or 7 or Mozilla Firefox 1.5 through 2.x

## Make all your photos extraordinary

- Simultaneously select a specific photo area and apply incredible effects with a single stroke using the new Adobe Smart Brush. Improve lighting, add rich textures, and more with 8 libraries of over 50 sophisticated effects.
- Get just the photo fixes you're looking for with new one-step shortcuts that whiten teeth and make skies a vibrant blue.
- You took five shots of your subject, but pedestrians and cars distract from the scene in every one. Now, see only what you want to see in your photos—use Adobe Photomerge® Scene Cleaner to simply brush away any elements that changed positions between photos to create a single, perfect composite.
- Soften surfaces while keeping edges and details crisp with a new Surface Blur filter that works great on portrait shots.

## Share your stories in personalized creations

- Showcase your photos in one-of-a-kind Online Albums with your choice of dynamic, animated templates—including new, visually stunning options. Adobe Flash® technology lets viewers interact with your photos for an entertaining experience.

- Get step-by-step assistance for making photo creations like scrapbook pages, cards, and CD/DVD labels. Simply choose the type of creation you'd like to make, and the appropriate tools and instructions appear at your fingertips.

- Find inspiration in professionally designed, color-coordinated layouts that make it easy to make great photo creations in minutes. Or spend a little more time and customize all the elements of your chosen layout.

## Easily find and view all your photos

- With a single click, transfer photos from your memory card to your computer according to your preset preferences, so you can get back to taking photos sooner.
- Easily tag photos with keywords that represent people, places, and events. You can instantly view every photo you've ever taken of your dog, for example, by simply clicking on its tag.
- Find photos in a flash by typing keywords for tags, dates, and other file information into a new search box.
