- Optimising your home network with mobile apps

Key features:

- Latest Draft 802.11ac wireless technology*
- Backwards compatible with 802.11a/b/g/n devices
- Simultaneous Dual-Band with speeds up to 450 + 1300 Mbps*
- SpeedBoost™ technology
- Gigabit Ethernet Ports
- 2 USB ports and integrated DLNA Certified™ Media Server
- 3D antenna array allows for wall mounted or table top display
- SimpleTap™ simplifies connecting devices
- Optional cloud platform that enables remote access and mobile apps to manage your home network

Linksys EA6500 I Dual-Band AC Router with Gigabit and 2 x USB

Wireless AC technology
The EA6500 is the first Linksys Smart Wi-Fi Router offering AC technology for seamless/smoother video and music streaming. Connect your computers, Internet-ready TVs, game consoles, and other Wi-Fi devices at transfer rates up to 450 + 1300 Mbps speed for a premium home network experience.

The power of Dual-Band
Double your network bandwidth with Dual-Band AC (2.4 and 5 GHz) designed to help avoid interference and maximise throughput. Ideal for HD video streaming, high speed file transfers and wireless gaming.

SpeedBoost
Higher quality antenna technology helps to maintain high speeds across greater distances throughout your home for maximum wireless coverage and in-home mobility.

IPv6 enabled
The Linksys EA6500 supports the latest Internet Protocol technology to help you future-proof your network.

Benefits of Gigabit
Use the four Gigabit Ethernet (10/100/1000) ports for quick file sharing, 10x faster than standard Ethernet, between other Gigabit-enabled devices like computers, hard drives, and servers.

Advanced security
Help keep your network and personal information protected with advanced WPA2 encryption and integrated firewall.

Built-in USB port and DLNA Certified® media server
The USB port lets you add storage devices and printers to your network to share files or print wirelessly throughout your home. The built-in DLNA Certified® media server enables media streaming to your TV, Xbox 360, PS3, or other DLNA compatible devices.

Optimised for entertainment
Bring the ultimate entertainment experience to your home by connecting your computers, tablets, Internet-ready TVs, game consoles, media players and other devices to your wireless network and the Internet. The integrated QoS technology helps to prioritise latency-sensitive traffic which can help you to stream media, place a phone call or play multiplayer games without interruptions.

MINIMUM SYSTEM REQUIREMENTS

Web Browser	Internet Explorer 7, Safari 5, or Firefox 8 or Chrome
PC	Wi-Fi enabled PC with CD or DVD drive, running Windows XP SP3, Windows Vista SP1 or later or Windows 7
