Rhythm Edition

NANOLEAF LIGHT PANELS

Watch your Nanoleaf light panels dance to music with the sleek Rhythm module! No wires, simply plug the module into any Nanoleaf light panel and see it react to music in real time. In addition to customizing within the app, you can also toggle through saved Rhythm Scenes via its built-in button.

*Requires Nanoleaf light panels to work.

Rhythm Edition features:

Integrated audio sensor detects and syncs to music in real time

Download and customize Rhythm Scenes within the app

Control using the app, your voice or the physical button
